## LA PATRIE - ETUDE

The Etude is the most popular model in the La Patrie lineup. The Etudes specifications match those of the Motif but with a full size body. Incredibly responsive thanks to the feather-light Custom Polished finish, this guitar features great dynamic range along with the harmonically rich sound that you usually find in a guitar several times the price. Back & Sides: Wild Cherry, Neck: Mahogany, Top: Cedar (Pressure Tested Solid Top), Fingerboard & Bridge: Rosewood, Finish: Semi-Gloss Custom Polished Finish, Tusq® nut & saddle by Graphtech.

## LA PATRIE - HYBRID

The Hybrid CW is the nylon stringed guitar for the modern player who, like most of us, is not necessarily a classical guitarist. As the name suggests, the Hybrid is certainly a guitar from mixed origins derived from the traditional side of nylon stringed guitars and the desire to meet the needs of the modern player with its cutaway body shape, radiused fingerboard and onboard electronics.

## LA PATRIE - MOTIF

The Motif takes its compact dimensions from turn-of-the-century parlor guitars. The compact body of the Motif suggests a  $\frac{3}{4}$  size instrument but this is a full-scale guitar. There is more to the compact body style of the Motif than comfort, this is a serious guitar with many of the same features that professional guitarists look for in the best handcrafted instruments. The solid cedar top and Custom Polished finish ensure that this guitar will not only sound great when you first receive it but will actually become better sounding with playing over time.

## LA PATRIE - PRESENTATION

The Presentation's back & sides are made of solid rosewood. Rosewood is a tone-wood of exceptional response and projection. A solid cedar top and semi-gloss Custom Polished finish round out the package.
